## PROFESSIONAL SUMMARY

Results-driven Front-End Developer with hands-on experience building scalable web applications using HTML, ReactJS, and modern CSS frameworks. Proven ability to deliver responsive, accessible UIs and integrate front-end components with backend APIs. Experienced with API testing and debugging using Postman, version control via Git/GitHub Actions, and code quality tooling. Passionate about clean code, performance optimization, and seamless user experiences.

## TECHNICAL SKILLS

**Front-End:** ReactJS, HTML, CSS, JavaScript, Reactstrap, Bootstrap

**Back-End:** Python, PHP, Flask

**Databases:** MySQL

**Dev Tools & Platforms:** Git, GitHub Actions

**Concepts:** RESTful APIs

## WORK EXPERIENCE

### Web Developer

QAds

Jan 2026 – Present

Karaikudi, Tamil Nadu

- Developed scalable full-stack web applications using ReactJS, Reactstrap, PHP, and MySQL in an agile team environment.
- Built and maintained responsive UI components, ensuring cross-browser compatibility and optimal performance.
- Integrated front-end interfaces with RESTful backend APIs for efficient data handling and real-time updates.
- Implemented admin dashboards and business management systems, streamlining operational workflows.

### Artificial Intelligence Intern

The Mind IT Solutions

Mar 2025 – May 2025

Trichy, Tamil Nadu

- Developed web applications using Python, Flask, and MySQL with scalable, production-ready backend architecture.
- Built and integrated a BERT-based sentiment analysis and recommendation system using PyTorch, enabling real-time predictions and data-driven insights.

### Full Stack Python Development Intern

OneYes Infotech Solutions

Jul 2024 – Aug 2024

Chennai, Tamil Nadu

- Designed wireframes and interactive prototypes using Figma, improving the overall user experience and developer handoff.
- Integrated front-end designs with back-end Python functionalities, bridging UI and server-side logic.

## PROJECTS

### Multi-Panel POS System | ReactJS, PHP, MySQL

- Developed a role-based POS platform in ReactJS with a PHP REST API and MySQL, dynamically routing users across four panels based on assigned roles.
- Designed normalized MySQL schemas and RESTful endpoints with protected routes enforcing role-level access control (admin, staff, driver).
- Integrated a PHP-based automated reminder system to trigger pre-event notifications for scheduled admin meetings.

### Business Owner Networking Platform | ReactJS, PHP, MySQL, JWT, REST API

- Implemented JWT-based authentication with invite-only onboarding via SMTP and three-tier role management (admin, business, staff).
- Built an interest-weighted feed using user\_interest\_map scores and a mini CRM deal pipeline with dedicated messaging threads.
- Developed real-time 1-on-1 chat with typing indicators, read receipts, unread counts, and a full admin dashboard with audit logs.

### Property Listing Platform | ReactJS, Reactstrap, PHP, MySQL

- Built a real estate marketplace with admin-controlled property listings (sale, rent, lease) and a buyer-facing multi-parameter filter system.
- Implemented an enquiry module with PHP and MySQL backend enabling buyers to connect directly with property owners.

## EDUCATION

---

**Mount Zion College of Engineering and Technology**

2021 – 2025

*B.E. in Computer Science and Engineering*

*CGPA: 8.51 / 10*

**Sahayamatha Matriculation Hr. Sec. School**

2020 – 2021

*Higher Secondary*

*Percentage: 88%*

## CERTIFICATIONS

---

**Web Development** – Udemy

**Python Programming** – Bharat Sevak Samaj

**MySQL** – Guvi

**Python 101 for Data Science** – CognitiveClass.ai (IBM Developer Skills Network)
